Education

2021-09 - Current

Master of Education: Measurement & Evaluation

Teachers College, Columbia University | New York, NY

My first post-bac course of study, this program has an emphasis on psychological measurement and program evaluation. My intentions of this course of study to refine my behavioral research skills and establish an understanding of advanced techniques of data analysis, such that I may apply these skills in future labs and further education.

2018-08 – 2021-05

Bachelor of Arts with Honors: Psychology & The Behavioral and Social Sciences Applied to Education

Drury University | Springfield, MO

My first major was completed in psychology, and my second major was individually designed in cooperation with faculty and administration to help maintain my interest in behavioral research in education. This second major was thus named the social and behavioral sciences applied to education, blending behavioral science coursework with foundations in education, psychology, and sociology coursework – culminating in a research capstone. My minor was in advanced scientific analysis, housed by the behavioral science department.

2016-08 - 2018-05

Associate of Science with Merit: Behavioral Sciences

Drury University | Springfield, MO

This degree was completed simultaneously with the completion of my high school diploma. This allowed me to gain a foundation of behavioral sciences in the liberal arts tradition, which allowed me to complete a more focused program for the rest of my undergraduate studies.

Professional Training

Data Science Training via Coursera and SAS Training

- Topic covered include: Data Science | Statistical Analysis | Machine Learning | Python Programming | Business Intelligence | Data Analysis | Pandas | Numpy | Cloud Databases | Ipython | Relational Database Management System (RDBMS) | SQL | Folium
- Track completed course work at: [John Schupbach | Coursera](#)
- Track additional course work with SAS at my acclaim profile: [John Schupbach - Badges - Credly](#)
